Projects and Funds

1. financial

J. A. MacLeod Exploration is practically on his own searching funds through the Mining Companies and Government.

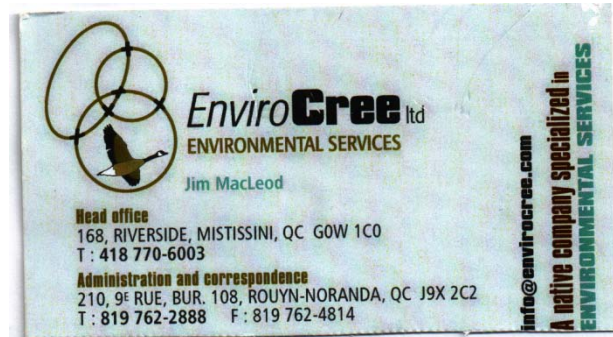

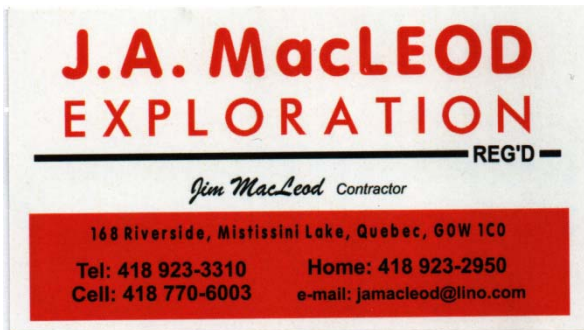

2. Projects Details

J. A. MacLeod Exploration is under the direction of Jim MacLeod and his son Larry MacLeod, It's proposes is to train natives and non-native on the exploration of properties with potential for eventual commercial exploitation.

J. A. MacLeod Exploration has put efforts to focus its research on finding projects and contracts through Mining Companies like Virginia Mines, Soquem and Eastmain Resources etc., in the Nord-du-Québec of Eeyou Istchee and to explore for Basic metals and minerals. The Company has interests in several projects in different environment in the Nord-Du-Quebec. The collaboration with the Mining Companies in the Nord-Du-Quebec of Eeyou Istchee projects is successful. J. A. MacLeod Exploration still have other projects with Mining Companies up-to-date.

CMEB evaluation of Macleod's Exploration

J. A. MacLeod Exploration is one of emergent Cree Company offering different services for mining exploration in mineral prospecting and is an aggressive company in the domain of exploration and evaluation of mining properties. The company does the work from grass roots to explorer in the Nord-Du-Quebec of Eeyou Istchee and plans to invest and believes in its potential to motivate the mining development and creating jobs for young natives and non-natives. J. A. MacLeod Exploration is proud to collaborate with the mining companies to search for projects and contracts on mining exploration development.
